

Getting Started

at Merriam Station Community Garden

Guidelines

Start Deadline

- Start gardening by Memorial Day, May 25, to keep your plot!

Organic methods - no chemical fertilizers, pesticides, herbicides, or fungicides whatsoever.

Weeds

- Keep your plots and adjacent pathways weeded.
- Rule of thumb: if your weeds have gone to seed, time to clean them up.

Abandoned plots

- Plots unattended by Memorial Day will be reassigned to individuals on the waiting list.
- Please report abandoned plots.
- We have a long waiting list and would like to turn over plots quickly.

Plot numbers - please display your plot number.

Community

- Get to know your neighbors! Make a habit of talking to other gardeners.
- Keep an open mind. We've got a lot to learn from one another!
- Don't be a sourpuss. Smiles are free! Say hello! Teamwork makes the dream work!
- Remember, we're all volunteers.

Sheds and Tools

- **Main shed key** is in the lockbox behind the bulletin board. Password to the key box will be shared in your welcome email.
- Cleaning supplies will be provided in the shed. Wipe down all tools before and after use.
- Keep it **clean** and **organized**. Leave it at least as neat as you found it.
- If you take it out, put it back.
- **Hilltop shed key** will be located outside the shed once installed.

Water

- Water is turned on mid-May. Password to the fire hydrant lock will be shared in your welcome email.
- After unlocking, please close and secure the lock back to the hydrant to avoid lost/stolen locks.
- Please lock the fire hydrant if you're the last gardener leaving for the day.
- Always attend to running sprinklers (do not leave water on)!
- Please roll the hoses neatly and rinse them off when you hang them.
